## Notes on gold's annual performance comparison, UK data

- The FTSE has topped this table 16 times in the last 4 decades, five of them since 2000;
- Government bonds come next (10 times), then gold and houses (6x each), and cash (2x);
- Five of gold's 6 winning years have come since 2005;
- UK investors last lost out entirely to inflation when it hit 15% in 1976, the year of the IMF crisis;
- Gold has underperformed the other assets most often, coming bottom 16 times since 1977 (bonds 9, housing 6, shares 5, cash 4);
- Gold is the best-performing asset for UK investors so far in the 21st Century, gaining 423% vs. bonds 189%, housing 167%, FTSE All-Share 110%.
