sonds 20 -year UK Gilts, yield + capital value
FTSE All-Share total returns index
HM Land Registry via ONS
Notes on gold's annual performance comparison, UK data

- The FTSE has topped this table 17 times in the last 4 decades, six of them since 2000;
- Government bonds come next ( 10 times), then gold ( $6 x$ ), houses ( 5 x each) and cash ( 2 x )
- All of gold's 6 winning years have come since 2005. It made double-digit gains 6 times before that;
- Inflation averaged $4.0 \%$ per year since 1980 , gold $5.2 \%$, cash $5.8 \%$, bonds $10.6 \%$, housing $6.7 \%$ and shares $12.8 \%$;
- Gold has underperformed the other assets most often, coming bottom 16 times since 1980 (bonds 7, housing 5, shares 6, cash 6);
- Gold has only matched UK inflation since 1980 , behind even cash in the bank. But it remains the 21 st Century's best-performing asset so far, gaining $523 \%$ vs. bonds $247 \%$, housing $184 \%$, FTSE All-Share $143 \%$.
